Contracts closed steady at advance o 8 to 51 points. NEW ORLEANS COTTON.

NEW ORLEANS, July 10.—Peace news, rumors of the settlement of the Lancashire strike and further rains in the eastern beit put the price of cotton to new high levels today. In the first half hour of business the market rose 52 to 72 points, both July and October trading up to 34.50c.

Confirmation of the reports of the ending of the Lancashire strike held the market firm for a while, trading months tsanding 65 to 72 points up at their best, but realizing finally filled up the demand and a small reaction ensued. At noon prices were about 25 points off from the top.

Realizing by longs held the market in check, and at 1 o'clock prices were at net advances of 35 to 45 points.

NEW YORK, July 10.—The Methodist missionary centenary has announced broad plans for a movement along secial lines for world betterment, which includes the adoption of 12 French towns on the Chateau-Thierry battle-field for reconstruction, the creation of recreation centers in many war-worn cities of France and Italy, the building of hospitals in darkest Africa and establishment of agricultural stations to teach American methods in Southern Italy, Chile and other countries. Methodists everywhere are being urged to help in the work.

This vast sociological and industrial enterprise is to be carried on by a department of 53,000 young men and women from the schools and colleges. More than 20,000 Methodist Episcopal churches, including both the Northern and Southern branches, are behind the centenary movement, which is inspired by the belief of the church leaders that the world is confronted by the dangerous specter of Belsheviam, which should be met by religious influence. good middling 35.60. Temporary Dip on Crop Report Followed by Ascension to New High Levels.

GRAIN MARKETS

to New High Levels.

CHICAGO, July 18.—Notwithstanding that bearieh constructions placed on the government crop report led at first today to a sharp setback in the price of corn, the market soon rallied and, except for December, went above yesterdays top figures. The unturn was due largely to the fact that offerings were being absorbed by strong houses, and that the ascent of hog values had not been checked. Trading was active. Opening quotations, which ranged from 18,63% lower, with September \$1.32% 01.34 and December \$1.3361.55, were followed by a decided general reaction. Outs displayed independent strength. After opening unchanged to %c off, including September at 72% 074c, the market sagged a little further and then accred a substantial advance.

Artistic furniture is in even more demand. Six Chippendale cohier chairs are copying this particular design with marked success and only the trained expert can detect the difference man reaped a harvest more than \$10,000,000 last year, according to figures compiled by Chica at the first of the fact that the clook at the probably ceased to tick more than a hundred years ago.

Illuminated manuscripts also are interested from the formal and, and, as in the case of furniture, record prices are being obtained. Letters of David Garrick and a few by his wife to noted persons of their time caused spirited bidding, but were withdrawn and will be offered again.

Efforts to trace the purchasers of some of the choicest offerings have revealed the presence in the market of persons who never before paid any attention to antiques. Many of them are persons who accumulated large for tunes during the war, and now that they have acquired fine houses, have set out, with the aid of methods, more complex and moreprofitable.

The really successful confidence men
of today usually have summer and winter homes, ride in limousines and are
alded by richly gowned women, authoritles say. They are educated and far
more clever than their brothers of old
days, whose favorite trick in Chicago
was to sell the Manonin temple to a
"rube" for a small sum, or agree to
make the building 'turn around"
Land selling schemes, peddling of

wits with the banker, capitalist and
lawyer, instead of dealing with the
ignorant ruralite. Nearly all the victurns of a Chicago gang recently sent
to the penitentary were bankers and
business men. The gang's loot aggregated more than half a million doilars
a year.

NEW YORK, July 10.—The Methodist missionary centenary has announced broad plans for a movement along social lines for world betterment, which includes the adoption of 12 French towns on the Chateau-Thierry battle-field for reconstruction, the creation of recreation centers in many war-worn eities of France and Italy, the building of hospitals in darkest africa and establishment of agricultural stations to teach American methods in Southern Italy, Chile and other countries. Methodists everywhere are being urged to help in the work.

This vast soclological and industrial enterprise is to be carried on by a department of 53,000 young men and wonen from the schools and colleges. More finan 20,000 Methodist: Episcopa churches, including both the Northern and Southern branches, are behind the centenary movement, which is inspired by the belief of the church leaders that the world is confronted by the dangerous peter of Bolsheviam, which should be met by religious influence.

Hawkinson, of Nashville Mr. Hawkinson was in Nashville today and told of the plans of the allied corporation to establish a number of plants in Southern territory, though he will not announce the location of these until next Monday.

The Allied Packers plan to erect several packing plants as well as take into the corporation a number of plants already being operated in the South. The big corporation will enter Nashville either with a new plant or through the entrance into the corporation of the Power Packing company which is effecting a new million-dollar packing house here. Nashville will not get one of the cottonseed oil plants, according to Mr. Hawkinson, on account of prohibitive freight rates.

However, Memphis and Atlanta, by reason of the close proximity to the cotton sections of the South and their splendid shipping and railroad facilities, as well as comparatively low rates by water and rail are considered to be the choice for the location of two of these manmonth plants contemplated. The new vlants will be uperated by the Allied Packers in the manufacture of cooking oils and fatty substances now common to the packing industry of the country.
